

BILLSOFT USER GUIDE

<https://billsoft.agbitsolutions.com/login>

❖ GETTING STARED :-

SignUp Page :-

The Sign Up page allows new users to create their BillSoft account and set up their organization. The user who signs up becomes the first admin of the organization.

A screenshot of the BillSoft 'Create Your Organization' sign-up page. The form is titled 'Create Your Organization' with a subtitle 'Set up your B2B billing account. You'll be the first admin.' It is divided into two main sections: 'Organization Details' and 'Admin Account (You)'. The 'Organization Details' section includes a 'Company / Organization Name' field with a building icon, an 'Organization Size' field with an example '10, 50, 100', and an 'Admin Account (You)' section. The 'Admin Account (You)' section includes fields for 'Your Full Name', 'Email Address', 'Phone Number (10 digits)', 'Password' (with a 'Max 16 characters' note and a toggle icon), and 'Confirm Password' (also with a 'Max 16 characters' note and a toggle icon). A blue 'Create Account' button is at the bottom of the form, highlighted by a red rectangular box. Below the button, there is a link: 'Already have an account? [Sign in here](#)'.

After creating your account, a verification email is sent to your registered email address. Verify your email to activate your account, then log in to continue.

BillSoft

Create Your Organization

Set up your B2B billing account. You'll be the first admin.

Registration successful! Please check your email inbox to verify your account and activate your organization.

Create Account

Already have an account? [Sign in here](#)

How to create an account?

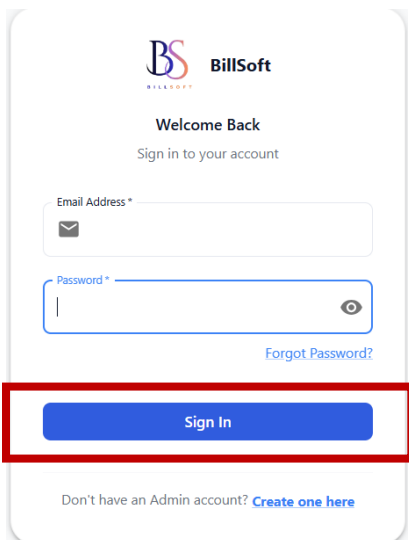

Follow these steps:

1. Enter your **Organization Name**
2. Fill in your **Admin Details**
3. Set your **Password**
4. Click on **Create Account**
5. Verify **email**

What happens after signup?

After successful registration, your account is created and you are redirected to the login page, where you can sign in using your credentials to access the dashboard.

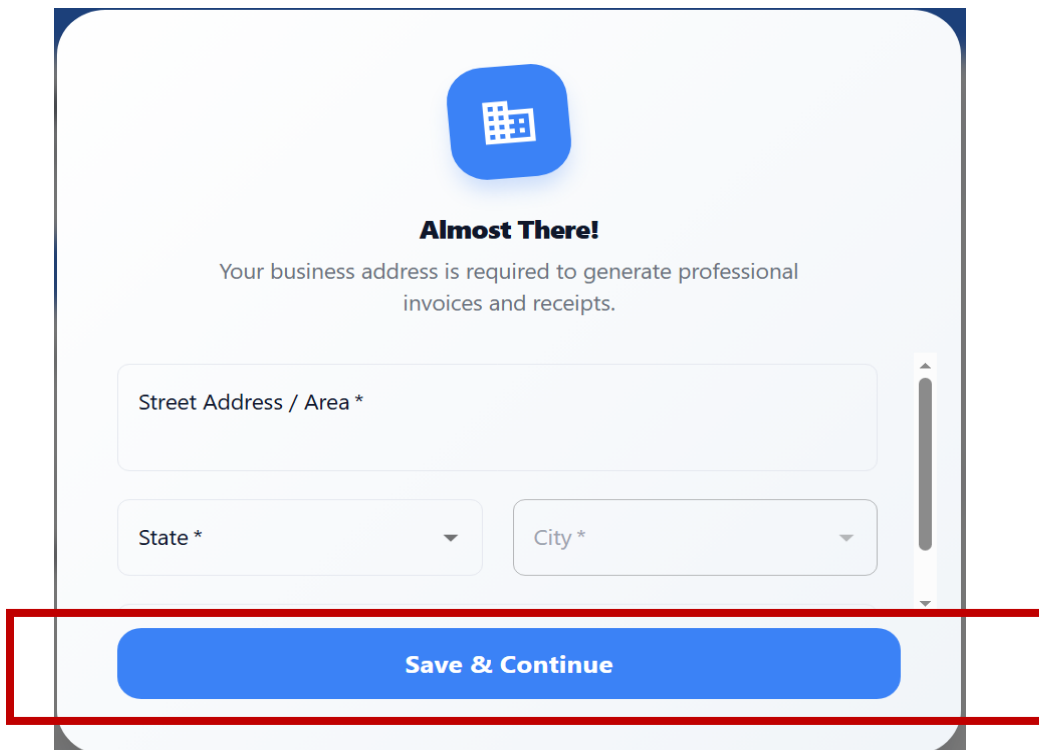

Login Page :-

The Login page allows registered users to securely access their BillSoft account using their credentials.

After successful login, you are redirected to the dashboard where you can manage billing, customers, inventory, and other business operations.

Business Address Setup (First-Time Setup) :-

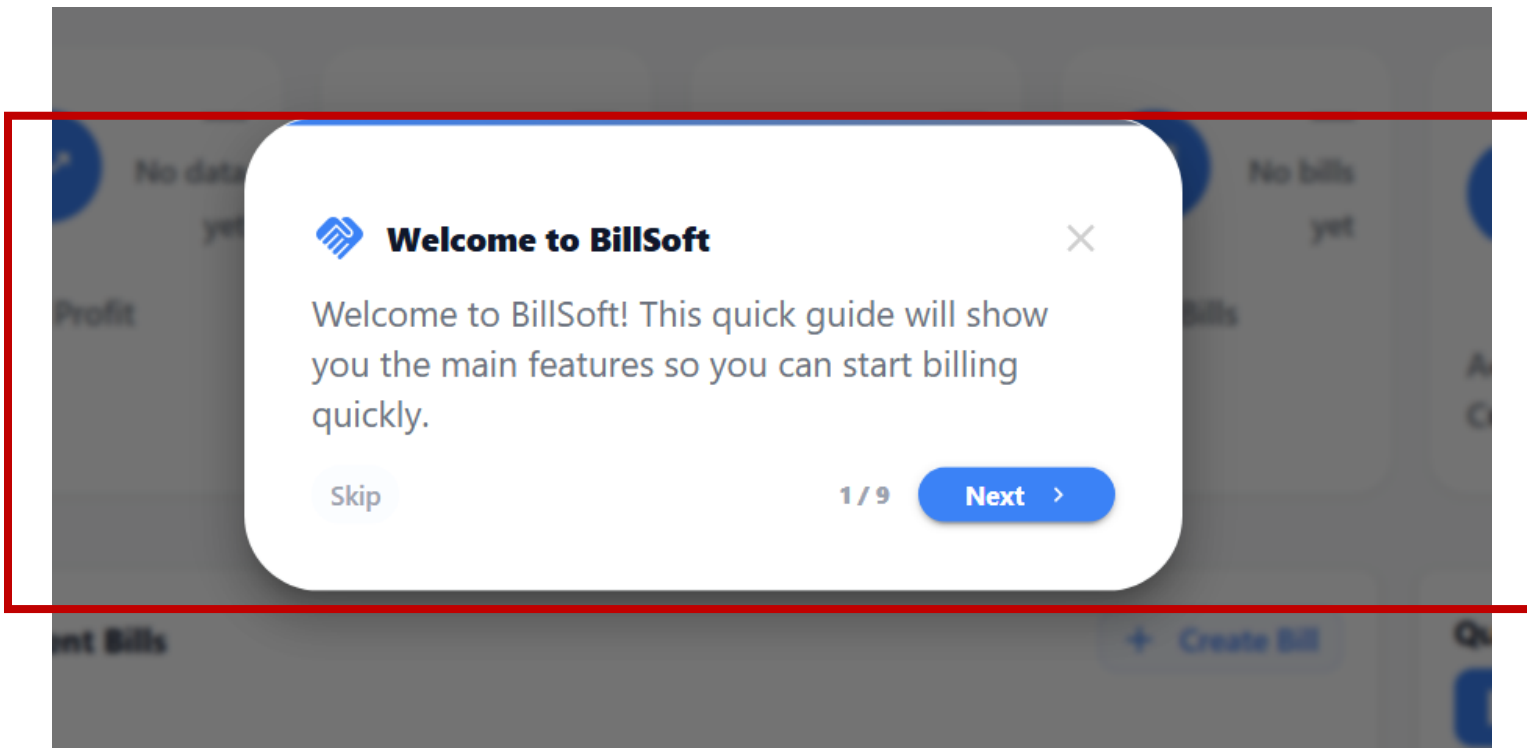

The screenshot shows a user interface for entering business address information. At the top, there is a blue icon of a building. Below it, the text "Almost There!" is displayed in bold. A message states: "Your business address is required to generate professional invoices and receipts." The form contains three input fields: "Street Address / Area *" (a large text box), "State *" (a dropdown menu), and "City *" (a dropdown menu). At the bottom of the form, a blue button labeled "Save & Continue" is highlighted with a red rectangular border.

Business address details are necessary to generate professional invoices, GST-compliant bills, and official documents.

 How to complete setup?

1. Enter your **Street Address**
2. Select your **State**
3. Select your **City**
4. Click on **Save & Continue**

User Guide popup :-

This quick guide will help you understand the key features of BillSoft so you can start managing your billing quickly and efficiently.

A quick guide to help you start using BillSoft easily.

DashBoard Page :-

The Dashboard is the main control panel of BillSoft where users can view business performance, access features, and perform quick actions.

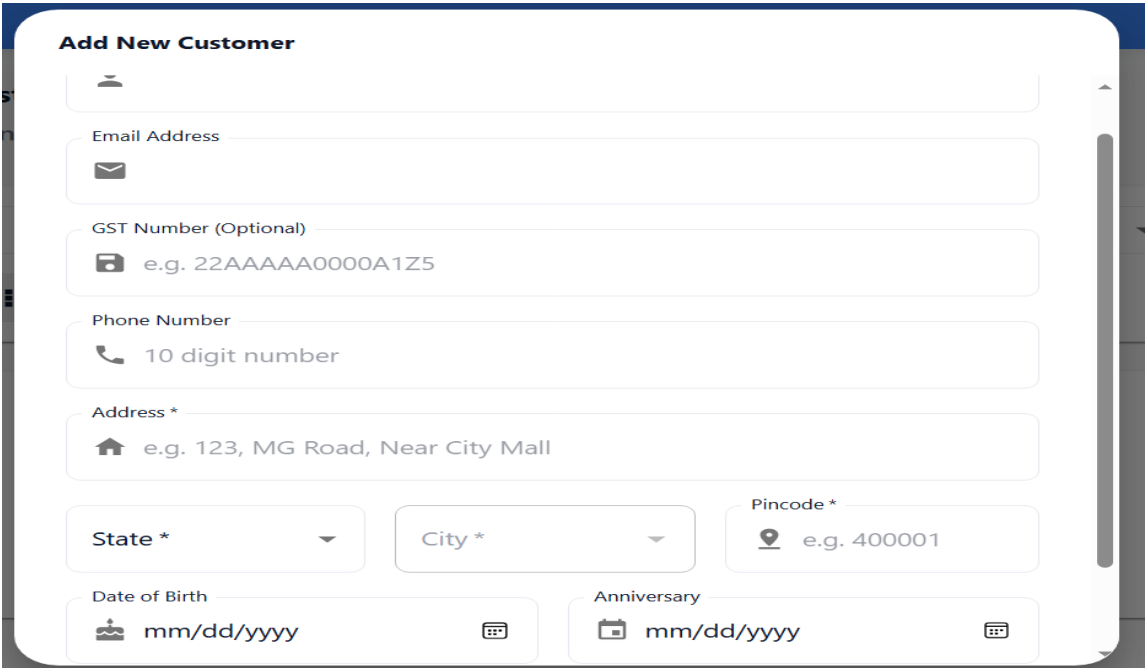

Add Customers :-

The Customer Management page allows users to store, organize, and manage all customer-related information in one place for easy access and billing.

Add New Customer Details :-

This page allows you to add and save customer details for billing and record management.

The screenshot shows a web form titled "Add New Customer". The form contains several input fields and dropdown menus. The fields are arranged vertically, with some having icons (person, envelope, GST, phone, house, location pin, calendar) to the left of the text labels. The labels are: "Email Address", "GST Number (Optional)", "Phone Number", "Address *", "State *", "City *", "Pincode *", "Date of Birth", and "Anniversary". The "Date of Birth" and "Anniversary" fields have a date picker icon (calendar) to the right of the input field. The form is enclosed in a red border.

Add New Customer

Email Address 

GST Number (Optional)  e.g. 22AAAAA0000A1Z5

Phone Number  10 digit number

Address *  e.g. 123, MG Road, Near City Mall

State * City * Pincode *  e.g. 400001

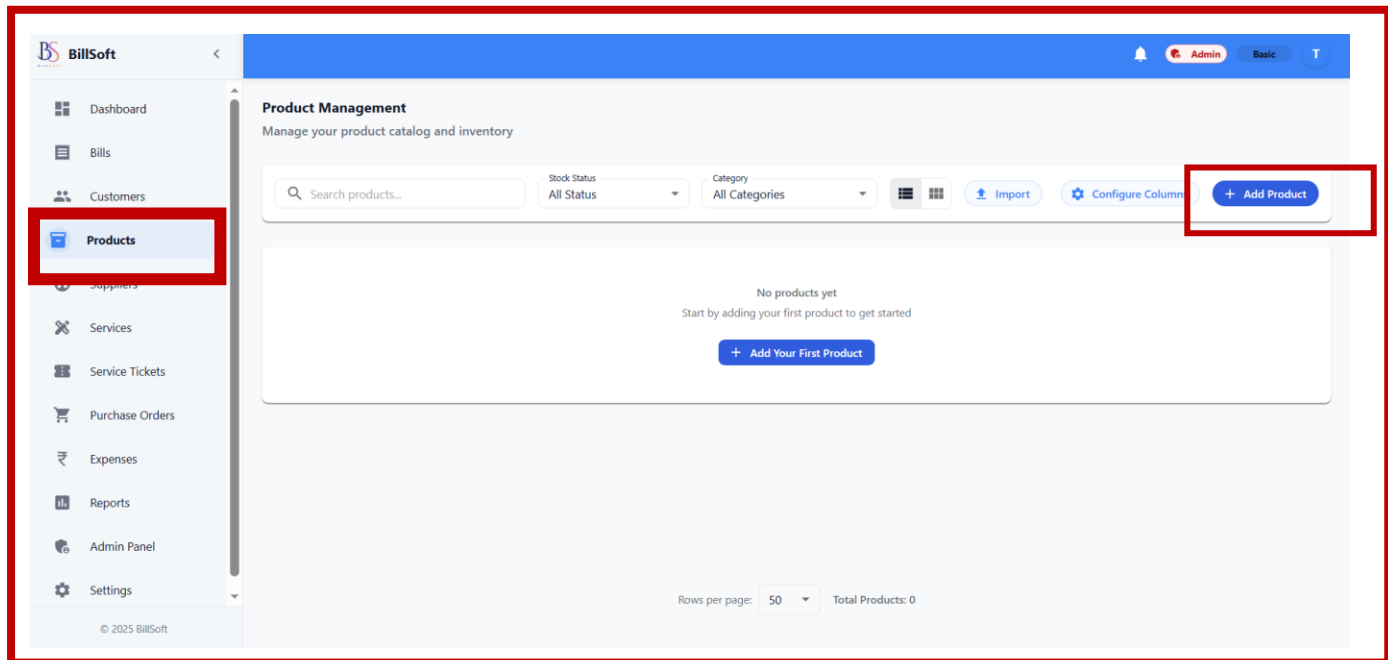

Date of Birth  mm/dd/yyyy Anniversary  mm/dd/yyyy

How to add a customer?

1. Enter Customer Details
2. Fill in Contact Information
3. Add Address & Location
4. Click on Save / Add Customer

Add Product page:-

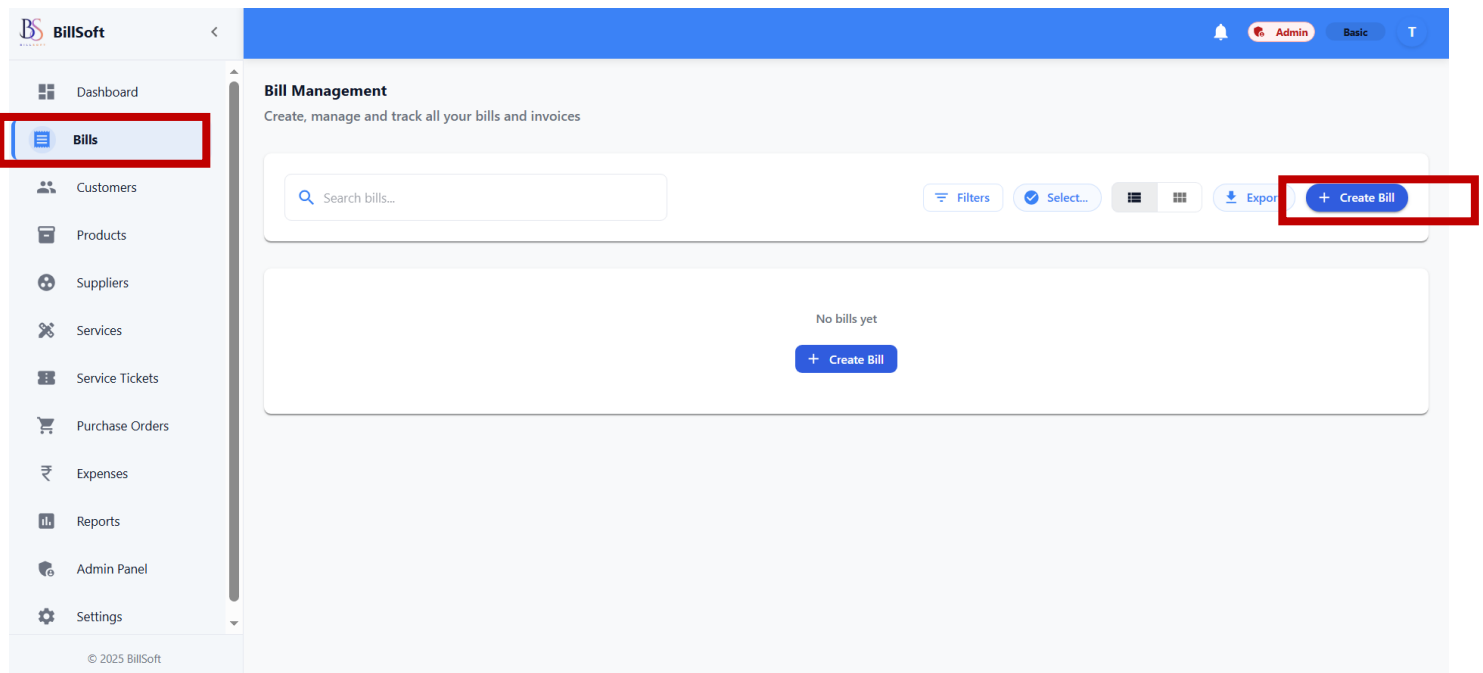

The Product Management page allows users to manage their product catalog, track inventory, and organize items for billing purposes

The 'Add New Product' form is divided into two main sections: 'Basic Information' and 'Pricing & Tax'. The 'Basic Information' section includes a 'Product Name *' field with a product icon, an 'SKU' field with the label 'Stock Keeping Unit' below it, a 'Description' text area, and a 'Category' dropdown with the text 'Select or type category'. The 'Pricing & Tax' section includes a 'Rate (₹) *' field with a rupee symbol icon. The form has a vertical scrollbar on the right side.

Bills Page :-

The Bills page allows users to create, manage, search, and track all invoices in one place. It is the central module for handling billing operations in BillSoft.

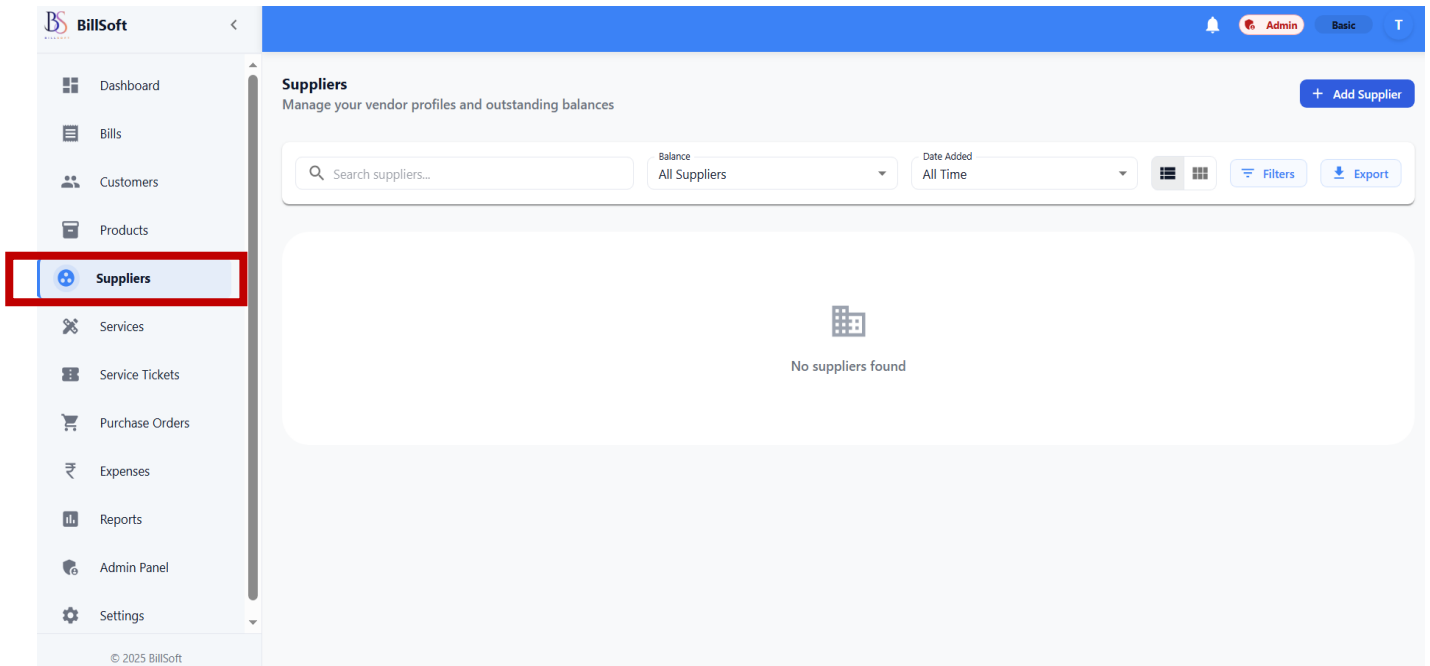

Create Bill :-

This screen allows users to create a new invoice by selecting a customer, adding products or services, and generating a bill.

The screenshot shows the 'Create Bill' form. It is divided into two main sections: 'Relationship Details' and 'Bill Details'. The 'Relationship Details' section includes a 'Select Customer *' dropdown and a 'Link to Supplier (Optional)' dropdown. The 'Bill Details' section includes a 'Bill Date' field set to '04/01/2026' and a note about tax: 'Tax is automatically applied from each product's saved Tax Rate (%). You can update a product's tax rate in the Products section.' Below these is a 'Choose Product or Service' section with two tabs: 'Products' (selected) and 'Services'. Under the 'Products' tab, there is a 'Select Product (Search All Products...)' dropdown, a 'Quantity' input field, and a '+ Add Item' button. At the bottom right are 'Cancel' and 'Create Bill' buttons.

Suppliers Page :-

The Supplier Management page allows users to manage vendor details and track supplier-related information for purchase and inventory operations.

Add a new supplier by filling in the required information.

Internal Security PIN

Set a dedicated PIN for internal verification. You'll be prompted for this PIN when performing sensitive operations like permanent deletions, financial record modification, or changing security settings.

Note: This PIN is only for **internal verification** and will **NOT** lock the entire application or restrict access upon login.

Financial Privacy

Control the visibility of financial figures like revenue, totals, and balances across the app.

☒ **Hide Financial Data**
Amounts will be masked (e.g., ₹***) until you hover over them or disable this setting.

Secure Actions

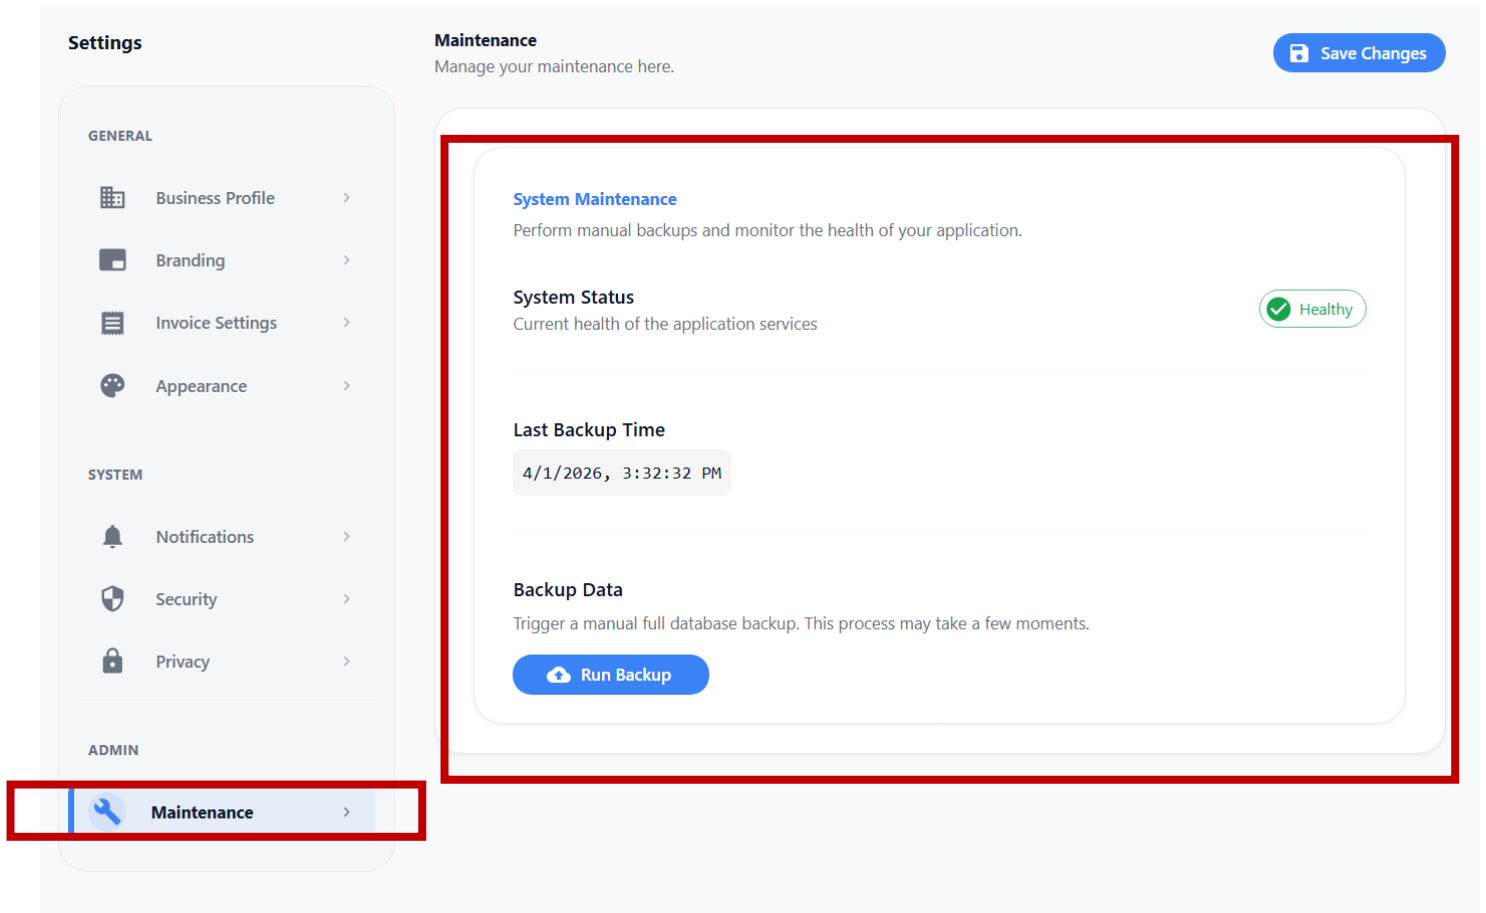

Require confirmation for critical actions like deleting records or resetting data.

☐ **Enable Confirmation for Critical Actions**

Warning: Enabling these settings provides extra protection for your business data, especially in shared environments.
